## 1 Introduction

This document provides a detailed overview of main sub-project of the “Roadmap 2005” project. It shows the progress made so far in a formalised table, adding the “next milestone(s)” the sub-project is aiming at.

This document will be updated at least for each IPTC meeting.

Key to the tables:

- the table shows only documents circulated for internal or public review
- a cell of the table shows the version of a document and the month of its creation
- the background colour of the cell indicates the approval state:

-	light yellow = under discussion, no agreement or approval by nobody
-	light blue = agreement on the level on the developer group
-	light green = approved by the Working Party
-	bright green = approved by the Standards Committee

- red = approval rejected by the Standards Committee

- a milestone is: description of the intended achievement plus a date (month is sufficient)
- a number in square brackets and blue like [52] refers to the Gantt diagram in the Appendix

## 2 News Architecture Working Party

All documents of this Working Party are available at

<http://groups.yahoo.com/group/iptc-news-architecture-dev/files/>

except discussion documents of the Common Components Working Group which are available at:

- Create some mockup examples

### 4 References

#### 4.1 Document file names

Most of the documents are not directly related to Working Party/Group work but to the development of a standard – hence they got a file name relating to this standards. This list provides an overview of the most common file name – with out a revision identifier.

##### 4.1.1 News Architecture (NAR)

All NAR related file names for the development of version 1.0 start with “DRAFT-NAR\_1.0-spec- ...” or “DRAFT-NAR\_1.0-doc- ...”

The documents of the Working Groups append to this base name the WG name in full or abbreviated.

Appended to this string the file name hold information about the type of the document, like:

- BusinessRequirements
- Requirements
- Model
- Tech(nical) Spec(ifications)
- Lib(rary) Spec(ifications)

All these files are available at: <http://groups.yahoo.com/group/iptc-news-architecture-dev/files/>
