

QIP 2001

Fourth Workshop on Quantum Information Processing Amsterdam, January 9-12, 2001

QIP 2001 is the fourth workshop on quantum computing, quantum cryptography, and quantum information theory in the tradition of AQIP'98 in Århus, AQIP'99 in Chicago, and QIP 2000 in Montréal. The workshop will be held at the Trippenhuis in the center of Amsterdam. In addition to the invited talks, there will be an open session and posters.
